dents who study in that seminary. John H. Dey, of New-York, an elder from the Westchester Presbytery, and one of the editors of "The Evangelist," desired to have the question reconsidered, but as he did not vote in favor of the answer, it was ruled that he could not make the motion. Another com-missioner did make it, however, and Mr. Dey made spirited address, in which he explained the status of Union Seminary, declaring that its directors, after taking legal advice from such men as James C. Carter and ex-Judge Nonh Davis, did not feel that they were doing wrong. He insisted that since there were seven men in the seminary who were not disap-proved by the General Assembly, it was unjust to ose men to take the severe action which had been ten. Mr. Dey deprecated also the fact that certain men, not members of the Assembly, had come New-York to influence the committee against the seminary. He objected, he said, to this backdoor legislation. As it would have required 397 votes to reconsider the motion, and less than 100 voted against laying Mr. Dey's motion on the table, the answer to the overture still stands, and the Presbytery of New-York is instructed and enjoined not receive students under its care who are pursuing or intend to pursue their studies at a seminary for thich the General Assembly disavows responsibility.

Dr. Booth has been criticised by friends not pres-ent at the Assembly for his rulings here, as he vas criticised by friends not members of the New-York Presbytery for his rulings there. But it must be stated, in all carness to the Moderator of the Assembly, that he has carefully refrained from taking part in any discussion on the vital questions which have come before the body, and if is to be criticised at ad, it should be by those who think that he has at times allowed too free discussion upon minor questions. Perhaps, know-Moderatorship in New-York, he has been more than usually careful, but he has not succeeded wholly in vision in the Department of Agriculture, of whom escaping criticism from New-York.

Assembly expressing its great grief and alarm at the flagrant violation of the Lord's Day exhibited by the last Congress, which continued in existence on that day. The Presbytery declared that there could be no plea of necessity for this action. The overture continued as follows:

consider this a most serious matter, and a shock to the Christian sentiment of this country that is amazing and inexcusable. We believe that it is a weakening of one of the chief defences of our liberties, and far from being only a slight to mere religious sentiment, and therefore deserves and should arouse severe rebuke of the whole people of the Union.

Mr. McDougail wrote to Dr. Rooth, asking that Dr. Roberts should withdraw this statement, and that his letter asking this withdrawal should be published in the minutes of the Assembly. Dr. Roberts began to reply to the letter, protesting against its being published in the minutes, but Governor Beaver moved that no reference should be made to the matter at all in the minutes, and this action was ordered by the Assembly. SCHEMES TO TRANSFER APPROPRIATIONS

TO LIGHTEN THE LABORS OF THE SENATE COM-MITTEE-SENATOR SHERMAN ADVO-CATES THE CHANGE.

Pittsburg, May 25.—Once again, and presumably for the last time at this Assembly, the Union Seminary question came up this morning. Not on a direct question of approval or disapproval, but on a question to reconsider the action taken two or three days ago relative to the licensing of street and the service of the several of the annual appropriations of the Senate by transferring the jurisdiction of several of the annual appropriation bills to other several of the annual appropriations of the several of the annual appropriation bills to other several of the annual appropriations of the several of the annual appropriations of the several ful is regarded as somewhat doubtful, despite the fact that a similar movement in the House of Representatives some years ago was successful. It should not be forgotten, however, that in that case the effort was a part of the scheme "to down Samuel J. Randall," who was chairman of the Appropriations Committee, and who had incurred the bitter hostility of the free-trade faction of majority which triumphed in the election of John G. Carlisle as Speaker in the XLVIIIth Congress.

The opponents of the distribution among a number of the standing committees of the House of Ber of the standing committees of the House of Representatives of a majority of the regular appropriation bills have always contended that it has resulted in too liberal, not to say extravagant and unwise, appropriations and expenditures of the public money, and they continually point to the large yearly increase in appropriations for the several branches of the public service in cases where the bills have been placed in the hands of committees other than the Appropriating Committee to support their contention. On the other hand, the advocates of the plan of distribution stoutly contend that there has been no unnecessary or unwise increase of appropriations, and they point to the heavy annual deficiencies that Congress is compelled to vote every year for these branches of the public service that the Appropriations Committee still has jurisdiction of as sufficient proof that, if other committees have been too generous, that committee has practised unwise economy and been governed by a spirit of niggardliness that never can be justified or excused. their decision before June 6.

The questions involve practically the title to the whole river front of Washington, and upon their determination will depend whether Congress shall continue the reclamation of the flats and the construction of a magnificent system of boulevards.

The points at issue are the effect of grants to Lord Collegeper and to Lord Baitmore upon the land under the Potomac River; the validity and effect of the confiscation acts passed by the General Assembly of Maryland during the Revolutionary War and many other equally intricate problems.

daily average of receipts for the ast five days was only \$85,000, which was \$85,200 less than the daily average for the first seventeen drys of the month.

The daily average of expenditures has shrunk in a most remarkable degree. For the last five days it has amounted to only \$65,000 a day, whereas for the first seventeen business days of the month it amounted to \$135,500. The daily average expenditures, therefore, appear to have shrunk more than one-half since May 20. The shrinkage for the remainder of the month will probably be still greater and more remarkable.

The Treasury, in the hands of the Democratic party, has fallen into a state of chronic impecuniosity, and its officers, who are charged with the duty of paying current bills, are forced to resort to the same shifts in the last third of each month that are employed by the impecunious private debtor, who says to his creditor. Thease call next week and I will tell you when to call again.

THE MEMPHIS CONVENTION.

PROTEST OF THE SOUTH. From The Louisville Courier-Journal.

From The Louisville Courier-Jeurnal.

The convention which met in Memphis yesterday was in many respects a remarkable body. It was essentially and solely a gathering in the interest of principle. It was not in any sense an instrument for the furtherance of personal ambition. It was the sonorous protest of the South against the efforts of the office-sockers and silver-miners to plunge the people into a frenzy of error for sinister and selfish ends, the spontaneous response of the bone and sinew of the South to the threat of a Mexicanized currency the vigorous repudiation by the manhood of the South of the assumption that it can be blinded and maddened into tearing down above its own head the temple of National honor and financial integrity.

THE ISSUE BRAVELY FACED. From The New-York World,

This convertion has bravely faced an issue which it has beer the custom of politicians to shirk. It appeals to be intelligence of the people. It points out dangers that are universally menacing.

NO "SOLID SOUTH" FOR CHEAP MONEY. From The Hartford Courant.

From The Hartford Courant.

A systematic effort has been made to create the impression that "the South" is practically as solid for cheap and dishonest money as it used to be for the Lemocratic party. These hundreds of Southern banke's, manufacturers and merchants assembled at Memphis, representing not only the commercial bodies accrediting delegates to the convention, but also, doubtless, many thousands of likeminded practical and sensible individual citizens scattered through the Southern communities, say they have no use whatever for money of that sort.

MR CARLISLE AND HIS PARTY.

The big sound-money Democratic convention in Memphis vesterday was addressed by Secretary Carlisle, who made another strong argument against the free and unlimited coinage of silver. The Secretary is doing good work for sound money, except in his advocacy of a State bank currency, and at the same time is piling up arguments which will count beavily against the Democratic party if its next National convention should be dominated by the free silver men.

A REPRESENTATIVE BODY.

From The Brooklyn Eagle. Representatives were present from nearly all the Southern and Southwestern States, and their standing in the business community precludes the supposition that they were used for packing purposes.

THE PERIL OF WILDCAT BANKING. From The Utica Herald.

Mr. Carlisle, in reversing himself on the currency question, is to be commended. But he remains wedded to his State banks idol. At Memphis he speaks for the wildcat banking scheme, which the Congress of his own party rejected when offered to it last winter. The United States has the best banking system in the world. The people want no return to the wildcat ante-bellum system.

President Farker, of the Association of Demo-cratic Editors, said bout Senator Hill as a Presi-dential nominee were spontaneous. There was no intention on our part to boom him. It was a very delicate point, those who were present considered, but it seems to me that he is growing in strength and the leaders may unite upon him as the best can-didate next year. It looks to me as if such will be the case." o'clock. Speaking of the meeting of the Demo-

Ten Years of Agony. BUT RIPLEY BROM-LITHIA WATER CURED HER.

Hrooklyn, N. Y., May 17, 1896.

The Eastern R. B. L. Co., New-York City, N. Y.,
Gentlement I have been a sufferer from chronic kidney
and blader troubles for ten years, and have suffered
great agony during that period. Have been treated by
one of Brooklyn's most eminent physicians, who finally
advised me to try Ripley Brom-Lithia Water. I used
five gallons, and for the first time in years was benefited
beyond expression. After my experience in other remedies I would never be without the R. B. L. Water, and
feel I cannot say too much in its favor. To my fellowsufferers I say, try it. Yours truly,

(Signed)
